

Mobile High Performance UV Lamps

Manufactured with an efficient unique passive thermal management system specially designed for high power UV LEDs means no fan or liquid cooled system is required. The system design allows for complete access all around the vehicle including the top with ease.

All models are equipped with a distance sensor that allows the operator to adjust the lamp unit at the proper 300mm from the curing surface, and a digital control board that allows the selection and display of the curing parameter.

- Higher accuracy due to incorporation of lenses and distance control.
- Large, uniform curing area up to 600mm x 600mm.
- High intensity curing up to 16W/cm².
- No warm-up & cool down time.
- More than 35,000 hours of hard works.

Spectratek UVTEK3000

Short Wave IR Curing System

Short Wave IR Curing System for organic solvent based paint products and water based products is less expensive to operate with better results and saves energy because drying can be focused on repair area.

Thermal Integrated Sensor System (TISS) allows for fast set up and automatic regulation:

- Distance sensor emits audible tone for setting the proper distance from the panel.
- Heat sensor automatically adjusts the temperature throughout the curing process

Overhead Track & Rail System

Spectratek is acknowledged by all major paint brands. Spectratek covers a whole range of products, from a small mobile device for spot repair to entire track systems that retrofit onto your booth. The track system can incorporate IR and UV LED on the same track for further versatility within your shop.

Sharp Foam Pads - P80 - P1000

The Finixa Sharp Foam Pads are coated with an extra ceramic-coated aluminium oxide grit, which makes them stronger and more durable. An additional advantage is that the ceramic coating also counteracts clogging, which also leads to a more uniform sanding result.

- 2-sided abrasive
- Super soft backing foam adapts perfectly to contours, curves, and profiles.
- Extra flexible but resistant
- Dry or wet application
- Can be rinsed with water (saturated abrasive sponges)
- Packed per 24 pcs

P80 - 220

P320 - 1000
\$45 +GST EACH

SFP80-SFP1000

Scuff Rolls - 100mm x 10mtr

High quality non-woven nylon abrasive tissue with impregnated sanding grain, to quickly and comfortably depolish surfaces that need to be sprayed.

Available in 2 different grits to cover all your scuffing needs

SBR 10 - very fine - Red
SBR 20 - ultra fine - Grey

\$55 +GST EACH

1K UV Curable Putties

- Made specially for automotive refinishing.
- Complete and fast UV curing process between 15-60 seconds.
- Highly recommended for dents, cracks, scratches.
- Excellent flexibility and adhesion
- Eco-friendly with low VOC & 100% Styrene-free

500gm **\$85** +GST EACH
250gm **\$65** +GST EACH

UV Curing Lamp

- Super-fast curing times
- Powerful irradiance with maximum UV-A intensity of 55 $\mu\text{W}/\text{cm}^2$ at 20cm
- Active built-in cooling system keeps the lamp cooler to maintain optimum light output during extended use
- Ultrasonic distance control
- LCD control display

UVL 00

Contact your local Paintsmart Distributor for a demonstration

One-Step UV Primer/Filler

- One component primer/filler; No mixing with other products necessary
- To be dried with UV lamp (UVL 00)
- 1-2 minutes drying
- Higher productivity: increased time efficiency, energy saving
- For use on sanded and clean steel, aluminum, galvanized steel, dried and sanded OEM finishes, polyester fillers, hard and semi-hard plastics
- Ideal for spot & smart repair

TSP 1500

\$89.95 +GST EACH
